

FLASHLIGHT LED

INTRODUCTION

The Synerji Flashlight is engineered with high-grade ABS plastic, this flashlight delivers reliable performance across five lighting modes, including high-intensity and strobe options. It features a P50 LED core, white and orange SMD LEDs, and a zoomable head for adjustable beam focus. A digital LCD displays battery status, while the built-in Type-C charging port ensures fast, convenient recharging. Designed for versatility, it's ideal for both professional and everyday use.
