FLOOD WORK LIGHT

INTRODUCTION

This Synerji LED flood light with tripod stand is a reliable and portable lighting solution ideal for both indoor and outdoor use. Designed for durability and ease of setup, it features a dual-head configuration mounted on a stable tripod, making it perfect for work sites, events, and emergency lighting. Constructed from robust materials including aluminum, iron, and polycarbonate, it offers excellent resistance to environmental conditions. It's built to deliver bright, wide-angle illumination with high energy efficiency and includes a convenient power cable for flexible placement.

LED FLOOD LIGHT WITH TRIPOD STAND

SYFLO20DBLTR

Voltage: 220–240V, 50/60Hz

Power Consumption: 2 × 20W

Luminous Output: 2 × 1600 lumens

Power Factor: >0.9

Beam Angle: 120°

Colour Temperature: 6000K

IP Rating: Class I, IP65

Materials: Aluminum, iron, and polycarbonate (PC)

Cable Length: 2.5 meters

Warranty: 2 years
