SOLAR LED SECURITY LIGHT

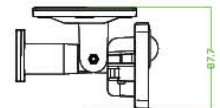

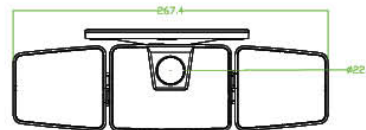

INTRODUCTION

Synerji LED Solar Security Sensor Trio Lights are **powerful outdoor lights built for security**. With three adjustable LED panels, solar charging, and motion-sensing technology, they provide bright, **wide-angle illumination when movement is detected** — helping to deter intruders and improve visibility. Charged by the sun and activated by motion, they offer an energy-efficient solution for driveways, entrances, walkways, and gardens.

SENSOR SECURITY LIGHT - TRIO PIR Sensor + Light Sensor

SYSOLWTRIO

Lamp Type: Integrated 6.5W LED
Lumen: 700LM
Lamp Size: 267.4mm x 120.5mm x 87.7mm
Lamp Fixture Colour: Black
Colour Temperature: 6500K
Sensor Detection Range: 6-8M
Material of light Fixture: ABS+PC+IRON
Material of Solar Panel: Polycrystalline silicone
Battery Capacity: 3.7V 1*18650 Li-ion 2000mAH
Solar Panel Wattage: 5.5V 1W
IP Rate: IP44
Warranty: 1 Year

Mode of operation:

Mode 1: Press the button once to activate. The light will turn on at 100% brightness when motion is detected, and switch off 25 seconds after no motion is detected.

Mode 2: Press the button twice to activate Mode 2. The light will automatically turn on at 30% brightness and remain on for 8 hours before switching off.

Mode 3: Press the button three times to activate Mode 3. The light will automatically turn on at 10% brightness at night, brighten to 100% when motion is detected, and return to 10% brightness after no motion is detected.

Mode 4: Press the button four times to activate Sleep Mode. The light will remain off.
