

# OUTDOOR LIGHTING

## LED SLIM FLOODLIGHT

### INTRODUCTION

The Synerji Slim PIR LED Floodlight combines sleek design with powerful performance, offering bright and efficient outdoor illumination. Built with a durable aluminium body, tempered glass, and stainless-steel screws, it delivers long-lasting reliability even in challenging conditions.

The integrated PIR motion sensor automatically activates the light when movement is detected, enhancing security and convenience. Featuring a wide beam angle for excellent light coverage and an IP65 rating for superior weather resistance, this range is perfect for gardens, driveways, building facades, and other outdoor spaces.
