SOLAR LED FLOODLIGHT

INTRODUCTION

The Synerji Led Solar Floodlight is an efficient solution for rural or domestic applications, with an IP65 rating. It features a remote control with "Auto" (day / night mode), "on/off", "3H/5H/8H", "100%" and "50%" illumination functions. The Solar Panel charges the 3.2V 10AH Lithium Battery, requiring 6-8 hours of sunlight for a full charge. Discharge time on a full charge will be 8-9 hours on 50% and 5-7 hours on 100%. Important: For maximum battery charge efficiency, ensure the solar panel is positioned correctly (to enjoy morning and afternoon sun).

SOLAR FLOODLIGHT - 150W

SYFLSOL150

Material: Aluminum body
Battery: LiFePO4 20Ah/3.2V
Solar Panel: Monocrystal 25W/6V
Real Initial Wattage: 10W
Lumens: 1500lm
Package : OEM design color box
Warranty: 3 years
Product Finish: Black
