SOLAR LED SENSOR LIGHT

INTRODUCTION

The Synerji Solar Motion Sensor Wall Light is a quick and easy solution to provide lighting outside your home or perimeter wall. The fitting is made from ABS and available in Black, Grey and White. **IMPORTANT** – make sure the fitting is installed where it will enjoy charging from the morning and afternoon sun. During the first 5 hours, the light shines at 15% and illuminates to 100% for 7 seconds when triggered by motion. Light remains off after 5 hours, illuminating to 100% for 7 seconds when triggered. Wall mount bracket, wall plugs and screws included.

MOTION SENSOR WALL LIGHT - BLACK

SYHSL2BK

Lumens: 100lm

Voltage: 3.7V

Size: 86mm (W) x 235mm (H) x 90mm (D)

Lamp Colour: Black Body

Colour Temperature: Cool White - 4000K

Battery: 1.8Ah Li-ion

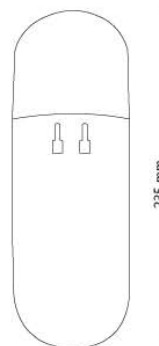

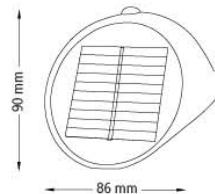

Material: ABS

Material of Solar Panel: Mono-Crystalline

Solar Panel Wattage: 5V 0,75W

IP Rate: IP54

Warranty: 2 Years
