

WEATHERPROOF FITTING

INTRODUCTION

The Synerji Weatherproof Fitting is wired for T8 LED Tubes and is designed for durability and reliability, offering tri-proof protection against UV, splashproof, and dust with an IP65 rating. Constructed from high-quality injection-moulded, self-extinguishing grey PC housing and a transparent prismatic PC diffuser, it ensures long-lasting performance. The stainless-steel gear tray with a powder-coated reflector is secured by plastic holders, allowing easy access for maintenance.

WEATHERPROOF FITTING SINGLE 24W

SYFWLED5FTS

Material:

ABS base, PC diffuser, and PC clips

Input Voltage: AC 240V

Fitting Size:

1 X 24W LED Tube

Wiring:

Equipped with fuse and internal wiring for single input connection

IP Rating: IP65

IK Rating: IK06

Ambient Temperature: 25°C

Operating Temperature: -20°C - +45°C

Includes:

Quick connector for easy installation

Excluding Lamp source
