BENDING SPRING: COATED | NON-COATED

INTRODUCTION

Handle conduit bending with confidence using Synerji's Spring Benders. Crafted from high-tensile steel spring wire, they provide the strength and flexibility needed to prevent kinks and maintain the conduit's shape. Suitable for a range of conduit sizes and available in galvanised or non-coated finishes, they're a reliable choice for smooth, manual bending on any installation.

INTERNAL SPRING BENDER COATED | NON-COATED

SYESP20	20mm Coated
SYESP20NC	20mm Non-Coated
SYESP25	25mm Coated
SYESP25NC	25mm Non-Coated
