OPEN END 3 CORD SET

INTRODUCTION

The APEX Open End Cord Set is designed for secure termination of stranded copper conductors in electrical installations. Manufactured from tin-plated copper, it enhances conductivity, minimizes wire fraying, and ensures reliable, long-lasting terminal connections. Supplied in a convenient strip format, it supports neat, organized wiring and efficient installation in control panels and distribution boards. Available in 0.5mm² and 0.75mm² options, this 3-core cord set offers flexibility for a range of applications while maintaining consistent performance and ease of use.

OPEN END CORD SET - 0.75mm² 3 CORE CABTYRE – 3m

STAC5A0EF073WE3

Conductor Size: 0.75mm²

Pin Length: 3 mm

Current Rating: 5A

Material: Electrolytic copper with tin plating

Insulation: Uninsulated (open end)

Application: Stranded copper conductors

Function: Prevents wire fraying and ensures secure terminal connections

Packaging: 3M strip

Brand: APEX

MADE IN SOUTH AFRICA
